12p-7:30p	Off						
7:30p-7A							

Family Medicine Inpatient Service: On this service G2 residents provide continuity to patients from their residency patient panel and affiliated clinics. 70% of the Inpatient admissions are adult medicine. Daily rounds are held to assure supervision and teaching. Didactics are presented daily covering common medical conditions.

G2 residents participate in a night float rotation. They provide coverage for nighttime admissions to the Family Medicine Inpatient Service and supervision of G1 residents. Didactics are provided through direct interaction with Family Medicine faculty who are present on-site at night.

Educational Content of Rotation

Mix of diseases: Patients encountered will have a variety of conditions ranging from common medical problems to more complex and uncommon medical conditions. Patients will be of any age

Procedures

Procedures that may be learned or reinforced on this rotation include but are not limited to:

- Lumbar puncture
- Paracentesis
- Thoracentesis

Interpretive Skills:

Various Interpretive skills that may be reinforced or learned during the rotation include, but are not limited to:

- ABG Interpretation
- Chest X ray and EKG interpretation
- Serum electrolytes and routine chemistry panel, complete blood count, liver function tests , coagulation studies
- Urinalysis and urine cultures
- Blood culture results

Teaching Methods

- Direct patient care of family medicine service patients
- Teaching during patient rounds
- Didactic sessions
- Web-based study guides
- Independent reading
- Procedural learning (see above list)

Rotation Assignments

These items must be completed for successful passage of the rotation:

AAFP Journal quizzes – 85% completion required. Quarterly uploading into RMS Portfolio.
Challenger sessions as assigned. Completed session reports to be uploaded to RMS Portfolio.

IMR MODULES:

Chronic Illness:

- CV disease/Nutrition (6 hrs)
- Hypertension (4 hrs)
- CAD (4 hrs)
- Hyperlipidemia (6 hrs)

Assessment Method

- Completion of rotation evaluation by supervising Family Medicine faculty
 1. Formative
 - The service attending and senior residents provide ongoing and regular feedback throughout the rotation. Feedback includes status of resident's performance and suggestions for improvement.
 - Completion and maintenance of updated inpatient log
 2. Summative
 - Completion of formal rotation evaluation by supervisory Family Medicine faculty
 - Review and signoff of admission H&P by FM service attending or on call faculty
 - Chart review on 4 random inpatients at end of rotation by Associate Program Director. Results added to resident's quarterly review
 - Completion and maintenance of updated inpatient log
 3. Peer reviews about teaching and supervisory ability of senior residents
 4. IMR modules
 5. Challenger sessions as assigned.
