### **Educational Content of Rotation**

**Educational purpose and goals:** G3 residents are exposed to a range of unique populations including Somalis, Smokers, Urban poor, incarcerated persons and Homebound patients with the overall goal of observing and understanding how one might organize a practice to meet a specific population's needs. Additionally, the self-study materials will focus on health equity and how social detriments can affect health and wellbeing.

### **Teaching Methods**

Precepting in the various clinical locations

Self- directed learning with journaling, reading, video viewing

Discussion with faculty tying the self-study materials with their clinical experiences

### **Assessment Method**

Assessments will be gathered from the rotation sites

### **Educational Resources**

See list of assignments

### **Supervision**

Residents are supervised by attending physicians in compliance with departmental policy
