## **Twenty-Eight Week Chart Review**

At or about 28 weeks, all OB providers (residents when precepting) to review:

- **Problem List.** Update as needed.
- **RH status-**Is the patient Rh negative. Does the patient need Rhogam?
- Check that **GCT** is done. GCT at 24-28 weeks often missed if early GCT is done.
- **Repeat Hgb** if not done with GCT. Anemia often missed if Hgb not rechecked at 28 weeks.
- **Repeat Vitamin D** level. Adjust dose as needed.
- **Confirm dating** and make sure ultrasounds are documented in the dating section of the OB chart.
- **Vaccinations.** If the patient is Hep B Ab non-immune, she should be getting the Hepatitis B vaccine series during pregnancy. Flu shots during flu season.
- **Review urine cultures**. Document in problem list if any episode of UTI or GBS in urine.
- **Refer to Childbirth classes** if desired by patient. Please encourage <u>ALL primips</u> to attend and offer to multips as well, especially if this will be their first birth in this country. We have individual appts with Jenny Rian-Mendiola available at FMC, or a variety of Childbirth classes available at FMC and HCMC.
  - The classes available include: <u>Childbirth Preparation: 6-Week Series</u>, (<u>classes held on weeknights</u>), <u>Childbirth Preparation: Express Class</u> (Saturdays), <u>Combined Breastfeeding/Newborn Care Class</u>, <u>Breastfeeding Class</u> (English only), <u>Infant and Child CPR</u> (English only), <u>Car Seat Safety</u>, Birth Center Tours.
  - Talk to your team nurse if you need help referring or registering patients for the education.
- **Discuss and Promote Breastfeeding**. Refer for Lactation consultation/support if needed, especially if they have a history of breastfeeding problems.
- **Begin discussion of birth control plans.** Sign Federal Tubal papers if desired.
- **VBAC.** If previous c-section, make sure to document discussion and planned route of delivery.

## **UPDATE** and maintain the Problem List.

Please see Dr. Karsten or Dr. Pira if you have any questions/concerns about how to do any of the above.
