

# HCMC FAMILY MEDICINE RESIDENCY PROGRAM

## G2/G3 Centering Pregnancy

### ROTATION INFORMATION AND LOGISTICS

#### Rotation Description

**Centering Pregnancy:** A longitudinal rotation in which G2 and G3 residents will learn prenatal care in a group care model with one to one faculty oversight. Each resident is assigned one group of 8-12 women. They will be responsible for the management of prenatal care, delivery and post-partum care for patients in their group.
